NES Total WellNES System: For humans and animals

NES ProVision Advanced Analysis Software is a comprehensive health assessment tool that probes the human body-field to identify the bio-energetic and bio-informational distortions that may underlie physical and emotional issues. By placing your hand on a scanning device, in moments the software returns more than 150 results about your body and body-field in anatomically-correct and extremely detailed graphical representations that include:

- 1) Major organs and organ systems
- 2) Environmental influences, such as toxins and electromagnetic fields.
- 3) Nutritional Influences
- 4) Musculoskeletal system
- 5) Emotion, including trauma and shock
- 6) Body-field structures

NES health uses MiHealth, which is a hand held PEMF device that releases energy blockages, stimulates trigger points and brings your body's oscillations back to normal. This allows the important information delivered by the NES Infoceuticals to flow properly to where it is needed.

NES Infoceuticals are liquid energetic remedies that have been 'imprinted' with bio-information to directly correct distortions in your body-field and restore your body's inherent self-healing capabilities. They deliver the precise information your body needs to reclaim optimal functioning and health.

Heart Sound Recorder (HSR Graph)

A computer-based wellness monitor that measures the four chambers of the heart. This measures the rate, rhythm, and tone of the heart. From this graph, I will see the function of the liver, digestion, metabolism, calcium absorption, and more!

Muscle Response Analysis

Muscle response analysis is a tool that is used to determine areas of weakness within the body. It works on cellular energy within the body. This is helpful in knowing exactly what the body needs and wants in order to heal properly.

Food Plans:

In order for the body to heal properly, the correct food plan is needed. These food plans are given with specific instructions based on what you need for your body to heal properly. These include menus and grocery shopping lists. Food plans are primarily based off of labs.

Supplements used: Homeopathy, Herbals, Standard Process Nutrition

COSTS AND SERVICES

New Patient Appointment: \$150.00/ one hour time frame going over health history. At the end of the appointment you will receive a treatment plan and action items to get you started immediately.

Labs (recommended):

OTHER SERVICES

MiHealth Treatment

\$45 per half hour treatment

SuperHuman Protocol

\$250 for 6 sessions (1 trial per patient)

\$175 for one session of SuperHuman Protocol

More packages and details attached

Aspen Laser: Great for pain and other trigger points that need more intense, focused light therapy than the TheraLight Bed.

1 FREE Session per Patient

\$75 per session

\$360 for 6 treatment sessions

\$500 for 10 treatment sessions

If you buy one package, every other laser session is ONLY \$50

Rife Therapy: Rife broadcasts in 15 different waveforms and is random. It repeats every 1,000 times so the pathogens cannot adjust; they do not have time to adjust since the pattern is so random. Rife works at the cellular level to either kill pathogens or support the body's systems. Can be used for almost any sickness or disease.

\$200 per 24 session personalized treatment plan written by Dr. Keri

\$600 for 24 sessions or \$60 per session

\$174/week to rent and take home. \$600 deposit required.
